

August 7, 8, & 9, 2015

The Continental Tire Road Race Showcase takes over Road America's 4-mile circuit for what will be the most incredible weekend of sports car racing of the season. You will get to see the Continental Tire Sports Car Challenge race on Saturday, with the TUDOR United SportsCar Championship event on Sunday plus races from the IMSA GT3 Cup Challenge and IMSA Prototype Lites (powered by Mazda) all weekend.

**The Mazda Owners Corral will be located between turns 13, and 14 the same spot as last year. Lunch on Saturday will be provided by Mazda, there will be a charity raffle, open grid, autographs, tech talks, forums, and some great racing.**

Last year the people from Mazda told us the only thing keeping them from getting more power from the 4 cylinder twin turbo diesel engine in the prototype car was the inability to add more cooling.

Road America weekend is coming fast!!!! Make sure you purchase your tickets in advance from [Road America](#) to take advantage of great discounts before the end of July. Join Marlon from MOCO in paddock tours, raffles, food and hospitality. And don't forget to mingle with other Mazda owners, Rotary owners in the Corral with Mazda Community, MOCO as well as the RX Club of WI to share the sights of our favorite Mazda rides. Please join us for a fun, fast weekend at Road America

(Hearing protection is a good choice.)
