

Cars & Guitars Car Show

June 15, 2024

If you haven't been to Green Bay in a few years, boy has it changed! The Brights, Jelen, and Tim Deadrich stayed overnight Friday and enjoyed each other's company at dinner and a delightful "Friday on the Fox (river)" experience.

Thanks to the hard work of Mike Jelen, Badgerland Miata Club made its first appearance at a car show. It was a beautiful morning as the cars started lining up at 8:00 on S. Washington Street in front of The Automobile Gallery. BMC had 12 cars entered – 3 owned by new members. It was great to meet the new members from the North Region and talk to them about the club.

Overall, there was an impressive turnout of both cars on display and onlookers. We had plenty of interest in the Miatas from the crowd and other displayers, including some other Miata owners who expressed interest in joining the club.

Personalities from a local radio station broadcast to the crowd, keeping up the momentum. Activities included a live band, a 50/50 raffle and chances to win station swag (proceeds went to the museum). A food and beverage tent added to the street fair vibe. In addition to the cars displayed on the street, the Automobile Gallery collection was open for viewing.

All our members enjoyed the experience and are looking forward to next year's event.
